**Project Necessity:**

Achieving the goals of the Accounting and Financial Sciences Research Group of Niroo Research Institute within the scope of missions and tasks determined and expected in the country's electricity industry, and with maximum efficiency, effectiveness, is subject to a programmatic and purposeful movement.

**Project Goals:**

the purpose of defining and carrying out this project are:

- ❖ Review of the road map prepared by the group in 1397
- ❖ Preparing a comprehensive research program for the field of Accounting and Financial Sciences and presenting it to the board of directors for discussion in the board of trustees

**Abstract:**

In this project, the vision, mission and strategies of the Niroo Research Institute are first stated and then the position of the Accounting and Financial Sciences Research Group is discussed. then the research tracks of the group are described. In the following, the list of projects resulting from the project "Development of a strategic document and roadmap for the Accounting and Financial Sciences Research Group" have been reviewed and New projects from the

review of upstream documents have also been added to this list . Finally, the projects in the final list are prioritized using experts surveys in each research track.

After finalizing and prioritizing the group projects, the operational planning of the projects has been done. In this phase, the estimated time, man-hours and costs required for the projects have been done and the executors of the projects have been determined based on the specified institutional mapping. Finally, the roadmap for the Accounting and Financial Sciences Research Group has been revised and redrawn and the estimation of the annual budget of the projects is determined separately by the research tracks.

### **Steps and Methodologies:**

The project " Three years road map of Accounting and Financial Science research group " includes the following steps:

1. Better understanding of Niroo research Institute
2. Determining the position of Accounting and Financial Sciences research group
3. Check upstream documents
4. Review of previous activities and experiences of the group
5. Survey of experts
6. Comparative study
7. Operational Planning

The methodology of this project is extraction and screening of projects through upstream documents and the project "Development of a strategic document and roadmap for the Accounting and Financial Sciences Research Group" Which are prioritized using experts poll and Friedman analysis.

Resource estimation is based on previous experience and similar projects in Niroo Research Institute.

### **Main Results (technical outputs, patents, papers, books, reports, etc.):**

1. list of final projects of Accounting and Financial Sciences Research Group
2. Separation of group roadmap projects into research tracks and their prioritization
3. Operational planning of projects (estimation of time, projects cost and annual budget of research tracks)
