

**Project Title:** Revising the strategic Document for Extending the Technologies Concern with the Distribution Network Design in Metropolitans

<b>Department:</b>	<i>The strategic Document for Extending the Technologies Concern with the Distribution Network Design in Metropolitans</i>	<b>Employer:</b>	<i>Niroo Research Institute</i>
<b>Project Manager:</b>	<i>Tara Khayyamim - Mostafa Goodarzi</i>	<b>Project Code:</b>	<i>NPDCPN01</i>

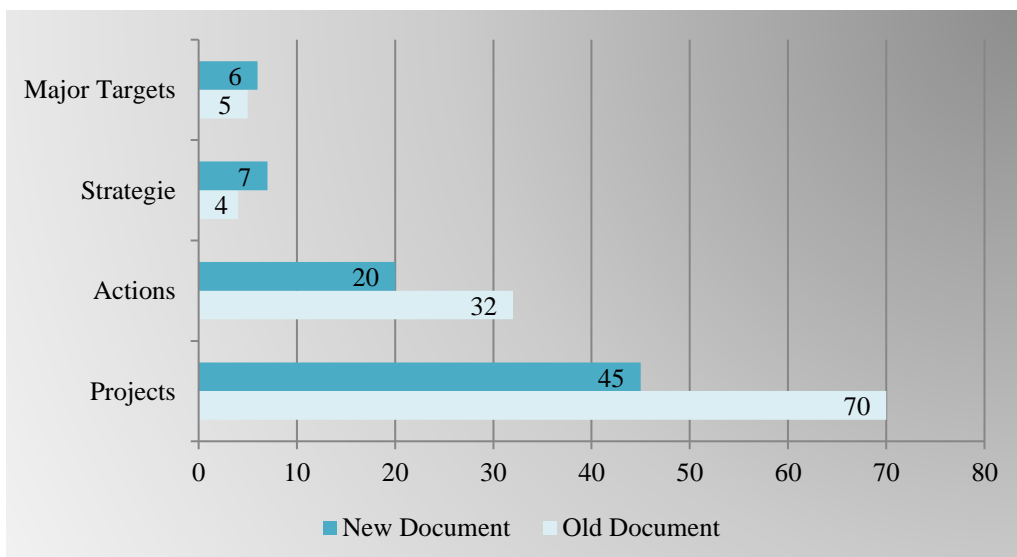

**Project Staff:** Mr. Mostafa Goodarzi, Mr. Mohammadreza Jafari, Mr. Farhad Zandrazavi, Ms. Bita Noupavar.

**Project Summary:**

In this project several parts of the main strategic document have been revised. These parts includes: Knowledge Tree, Technology Futurology, Major Targets, Strategies, Projects, Action plan and Road map.

**Project Results:**

The Knowledge tree, of the document has been reorganizes and divided into two parts: concepts, equipment and facilities. In the technology futurology, subjects such as micro CHPs, LVDC, smart substations, solid state transformers, smart grid and micro grid have been surveyed. At the end Major Targets, Strategies, Projects and Actions have been revised as it is shown in the picture bellow.
