Abstract:

In this project that done in 6 phase (step), we examined several NRI current commercialization contracts to determine their negative points. In step 2 through open and close interview with NRI experts and high level managers, we clarified that NRI need to joint R&D contract and NDA. In step 3 we studied laws and regulations governing commercialization producers in NRI and find that NRI according to the Principle 44

of Iranian constitution law and its amendments can invest in R &D until achievement a prototype, but NRI investment on sales, marketing, huge production faces with legal limitation including:

- 1- The project should be only in high-tech and venture technologies.
- 2- No private person was interested to invest the project .
- 3- NRI shall exite the project after 3 yaesrs and asigne its share to private sector.

In the phase 4 and 5 we reviewed last model of commercialization contracts sample and extract their positive points. According to these phases we draft a new joint R&D contract sample for NRI. In last phase we find that NRI IP council can administrate the commercialization issues and three is no need to a new committee.
